| General notes: If the suggested first aid measures do not prove sufficient, seek medical attention. Carry the afflicted person out of the contaminated area into a well-ventilated area or out for fresh air. In case of difficult breathing, provide the afflicted person with oxygen. Following skin contact: Following skin contact: Remove contaminated clothing. Immediately wash with plenty of water for at least 20 minutes. Seek medical assistance if the symptom of irritation remain. Rinse out with plenty of water with the eyelid held wide open for at least 20 minutes. If the symptoms remain, immediately call in ophthalmologist. Rinse the mouth thoroughly with 1-2 glasses of water. Immediately consult a physician and show the container or label. In case of swallowing large quantities, transport the afflicted person to the hospital. Self-protection of the first aider: Most important symptoms and effects, both acute and delayed Following inhalation: Depending on concentration and exposure time, it may lead to mucosa irritation, rough, and dyspnea. Depending on concentration and exposure time, it may lead to irritation, tearing, redness and pain. Depending on concentration and exposure time, it may lead to irritation, tearing, redness and pain. Depending on concentration and exposure time, it may lead to stinging and digestive mucus damage, abdominal pain, nausea, vomiting. | 4.1 | Description of first aid measures | | | | |

|---------------|-------------|----------------|-------------|----------|---|
| Product code: | TS-X** | Revision date: | 22 Dec 2022 | Version: | 4 |

| | Suitable extinguishing media: | Small fire - water spray, dry powder, CO ₂ Large fire - water spray or alcohol resistant foam | | | |
|-----|------------------------------------|---|--|--|--|
| | Unsuitable extinguishing media: | Water with full jet | | | |
| 5.2 | Special hazards arising from the s | ubstance or mixture | | | |
| | Hazardous combustion products: | Formation of toxic gases is possible during heating or in case of fire. | | | |
| 5.3 | Advice for firefighters | Advice for firefighters | | | |
| | Use a self-contained open-circuit | compressed air breathing apparatus and fireproof clothing. | | | |
| 5.4 | Additional information | | | | |
| | | Cool endangered receptacles with water spray. Collect contaminated fire fighting water separately. Do not contaminate the environment with extinguishing media. | | | |

| SECTIO | ON 6. Accidental release measu | res | |
|--------|---|---|--|
| 6.1 | Personal precautions, protective | e equipment and emergency procedures | |
| 6.1.1. | For non-emergency personnel | | |
| | Protective equipment: | Use personal protective equipment (see Section 8). | |
| | Accident prevention methods: | Evacuate members of all non-essential personnel and those members without protective equipment. Avoid breathing vapors and avoid contact with skin and eyes. Do not smoke. Keep away from ignition sources. | |
| | Emergency procedures: | Mark the area using proper signs. | |
| 6.1.2. | For emergency responders: | | |
| | Use protective equipment; in ca (see Section 8). | ase of inadequate ventilation use adequate airways protective equipment | |
| 6.2 | Environmental precautions: | | |
| | Do not dispose of in sewage, di Protection and Rescue Director | rainage system and waterways. In case of large spillage contact National ate (NPRD) on 112. | |
| 6.3 | Methods and material for containment and cleaning up | | |
| 6.3.1. | Bunding, covering of drains; capping procedures: | Sand protective barrier or barriers made of similar materials. | |
| 6.3.2. | Cleaning up: | Where possible, the substance can be absorbed by using absorbing material. Place the waste material in tightly closed impermeable containers. Store the substance in well ventilated storage rooms until disposal. Submit for disposal to the legal persons authorized by the Ministry of Environmental and Nature Protection. After disposal of the products, wash the area and and involved materials with water. | |
| 6.3.3. | Other information: | Secure proper ventilation. Do not use incompatible materials (see Section 10). | |
| 6.4 | Reference to other sections | | |

See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

| SECTIO | ON 7. Handling and storage | | | |
|--------|--|---|---|--|
| 7.1 | Precautions for safe handling | | | |
| 7.1.1. | Protection measures | | | |
| | Measures to prevent fire: | | Use in well ventilated storage rooms. Keep away from sources of ignition and heat. Do not use tools that cause sparks. Do not smoke. | |
| | Measures to prevent aerosol and dust generation | n: | Secure proper ventilation. | |
| | Measures to protect the environment: | | Prevent spilling into the sewage system and waterways. | |
| | Other measures: | | Protect against electrostatic charges. | |
| 7.1.2. | Advice on general occupational hygiene: | | | |
| | Do not eat, drink or smoke in the workspace. Thoroughly wash hands after work and before eating. | | | |
| 7.2 | Conditions for safe storage, including any incompatibilities | | | |
| | Technical measures and storage conditions: | well vent | rightly closed and upright set containers in a cilated storage rooms at temperatures from 15 to 25 °C. Protect from heat and nlight. | |
| | Packaging materials: | Manufac | turer's original packaging. | |
| | Requirements for storage rooms and vessels: | Keep away from food and drink. Keep the containers tightly closed. The storage must be made of hard material; floors must be resistant to chemicals. There must be no drain that directly leads into sewage system. Secure proper ventilation. | | |
| | Advices for storage equipment: | | | |
| | Further information on storage conditions: | and do n | place the unused material in the storage room not use empty containers for storing other s. Do not store with incompatible materials cion 10). | |
| 7.3 | Specific end use(s) | | | |
| | Recommendations: | - | | |
| | Industrial sector specific solutions: - | | | |
